

I'm one  
**brown bathrobe**  
away from **kicking**  
your butt

First the neighborhood - then the universe.

A Parks Saber is practically all you need in your quest for galactic respect. Made by hand from aircraft-grade, machined aluminum, these superior sabers house a true 360° electro-luminescent blade. This detachable and unbreakable 40" blade is powered by a 9V battery and is available in eight different colors. The saber's streamlined body carries a Force Touch™ sensitive activation switch mounted to a circuit board with a functional power meter. In addition, strobing LED bar-graph and blinking arrow indicators make this saber the very best available. Visit our website or call 972-564-4557 for more information. Parks Sabers. So real - it's daring.
